

**BluOr Bank AS**  
DISCLOSURE  
INFORMATION STATEMENT  
THIRD QUARTER of 2025

[www.bluorbank.lv](http://www.bluorbank.lv)

BluOr Bank AS (hereinafter – the Bank) publishes this information notice, disclosing information regarding the third quarter of 2025 in accordance with the Regulation No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012.

For the purpose of disclosing information for 2025, the Bank uses the templates set out in Commission Implementing Regulation (EU) 2024/3172 of 29 November 2024 laying down implementing technical standards for the application of Regulation (EU) No 575/2013 of the European Parliament and of the Council with regard to public disclosures by institutions of the information referred to in Part Eight, Titles II and III, of that Regulation, and repealing Commission Implementing Regulation (EU) 2021/637 (hereinafter – the Regulation 2024/3172) , and in Commission Implementing Regulation (EU) 2021/637 of 15 March 2021 laying down implementing technical standards with regard to public disclosures by institutions of the information referred to in Titles II and III of Part Eight of Regulation (EU) No 575/2013 of the European Parliament and of the Council and repealing Commission Implementing Regulation (EU) No 1423/2013, Commission Delegated Regulation (EU) 2015/1555, Commission Implementing Regulation (EU) 2016/200 and Commission Delegated Regulation (EU) 2017/2295, in which the figures are stated in thousands of euros (EUR `000) as at the end of the reporting period (30 September 2025).

Considering that the Bank does not apply the IRB approach, the internal model method, or the internal model approach for market risk in its operations, the Bank therefore does not disclose templates EU CR8, EU CCR7, EU MR2-B, EU CMS1, EU CMS2 at this time.

The disclosure statement is provided at the level of the prudential consolidation group (hereinafter – the Group).

## Table EU LIQB on qualitative information on LCR, which complements template EU LIQ1.

Row number	Qualitative information - Free format	
a)	Explanations on the main drivers of LCR results and the evolution of the contribution of inputs to the LCR's calculation over time	The result of the LCR is facilitated by the size of the liquidity buffer consisting predominantly of balances with the Central Bank and EU central government bonds, the volume of outflows consisting predominantly of balances on current accounts and term deposits, as well as incoming cash flows from lending transactions and balances on nostro accounts. Over time, as the loan portfolio increases, the ratio may decrease, however, when new deposits are attracted, the ratio increases.
b)	Explanations on the changes in the LCR over time	When placing financing in illiquid assets, including loans, liquidity reserves decrease and, consequently, the ratio decreases. Also, during periods when some concentrated part of term deposits falls on the 30-day horizon, outgoing cash flows increase and, as a result, the ratio decreases. The increase in the ratio is facilitated by attracting financing both in term deposits and in the form of balances on current accounts.
c)	Explanations on the actual concentration of funding sources	Most of the term deposits are attracted from individuals through online deposit platforms. At the level of depositors, they are diversified; term deposits of no more than EUR 100 thousand are attracted from one individual. Concentration is formed by dependence on platforms. The rest of the term deposits mainly consists of financing attracted from various financial institutions. Current account balances are sufficiently well diversified.
d)	High-level description of the composition of the institution's liquidity buffer	The Bank's liquidity buffer as a whole consists of balances with the Central Bank and EU central government bonds.
e)	Derivative exposures and potential collateral calls	The amount of derivative transactions carried out by the Bank is not very significant, mostly they consist of the Bank transactions for hedging the currency position and transactions of the Bank's clients.
f)	Currency mismatch in the LCR	Currency mismatch in the LCR is not significant, 97% of the Bank's assets and 98% of the Bank's liabilities are denominated in EUR.
g)	Other items in the LCR calculation that are not captured in the LCR disclosure template but that the institution considers relevant for its liquidity profile	All important elements contributing to the LCR result are reflected in the LCR disclosure template.
